

# *Massachusetts State Police Academy Professional Development Series*

## **Managing Missing Person Searches in the Urban Environment**

This course is newly developed and utilizes the text written by Christopher S. Young and John Wehbring, brings organization to management for dealing with the significant differences of wilderness searching and urban settings. **MLPI is a pre-requisite** for this class and the use of the latest Windows® version of CASIE 3. Specialized form templates created for spontaneous volunteers and a variety of checklists are provided to students for incorporation into the agency pre-plan. ICS forms and procedures are embedded to provide management tools and the use of multiple map exercises provide for hands on experience to help prepare students that will need to fill the management role.

32 hour class Fee: \$85.00 includes text, handouts, CASIE 3.
